FINANCES and MARKETS

[Republican A. P. Leased Wire] NEW YORK, Jan 5 (Wall Street) The salient feature of today's fever ist market was its steady resistance to pressure.

At the active opening of the marke gains of I to I points were made by various issues, chiefly coppers, Lack awanna Steel and some of the less netive specialties. Rads in general rose fractionally.

Heavier offerings of special descriptions, notably oils and automobile issues gave the market another setback during the late session. Prices continued to sag, almost the only exception being Lackawanna Steel, which made an extreme advance of 8 7-8 points to 85 7-8 in connection with more or less familiar rumors of a deal. tal series of stocks aggregated 920,000

Bonds were irregular. Total sales, par value, aggregated \$5,440,060, U. S. bonds were unchanged on call

Protest Against Installation of Meters to Suburban Services Carries for Time Being-Much Other Business Transacted

The city commission held a session esterday afternoon that began at 2 o'clock and continued for nearly three hours. At the conclusion the city fathers had extended finally the period for the payment of city taxes to January 31, had approved the contract with the state for connecting the asylum 314 sewer with the city sewer system, had adopted election ordinances, fixing March 4 as the day of the primary election and April 4 as the day of the general election, at which a mayor and and had voted to install are lights at every railroad crossing in city from Twelfth street west as far as Van Buren street. Permission was granted Frank Bowman, the blind newspaper vendor, to erect a small stand at the northeast corner of Central avenue and Washington street.

The matter of the proposed installation of water meters on all suburban mission in the form of three well signed petitions protesting against the use of such meters and the establishing of a minimum rate of \$2.00 per Attorney Cox addressed the commission saying that it was unjust and unfair to expect these users to install meters at their own expense when meters are required nowhere Mayor Young said that the wadepartment was making "barrels money," and he saw no reason for increasing the revenues at the expense of people just outside the city. Commer MacBean said that he was not in favor of meters at all, but that if they had to be installed it should be at the expense of the city and not of property owners. Commissioner Riches wanted the meters installed, but was agreeable to a reduction of the m printed booklet has been received by mum rate of \$1 per month on a basis Secretary Harry Welch of the local of 5,000 gallons consumption.
